Company overview

About us

We provide modern audiovisual solutions.

We specialize in lighting, multimedia, sound, stage structures.

We provide technical services for conferences, special events, fashion shows, concerts, open-air festivals and TV programs.

We treat each production individually and with commitment.

We invest in people, technology and equipment.

We are a creative and reliable technological partner at every event.

Our mission

Our mission at TSE, backed by the prestigious TSE Group, is to elevate Middle East's event scene to unparalleled heights.

With over 20 years of industry leadership, our goal is to consistently exceed expectations in all our endeavors.

Our dedicated team combines specialized skills and versatile expertise, driven by a passion for delivering exceptional experiences.

Utilizing the latest in multimedia, lighting, sound, and stage construction, we aim to transform events into unforgettable spectacles.

We are committed to turning visions into realities, ensuring each event, from intimate conferences to grand stadium spectacles, is a testament to our innovative and collaborative approach.

At TSE, innovation meets excellence, crafting moments of perfection.

Our mission is to not just organize events but to create lasting memories.

“Em power

“ We empower clients to elevate their events with professional expertise and comprehensive technical capabilities, delivering unforgettable experiences efficiently.

Services & solutions

We provide technical support on all types of events.

- **Sport events**
- **Confrences & exhibitions**
- **Concerts**
- **Various events**

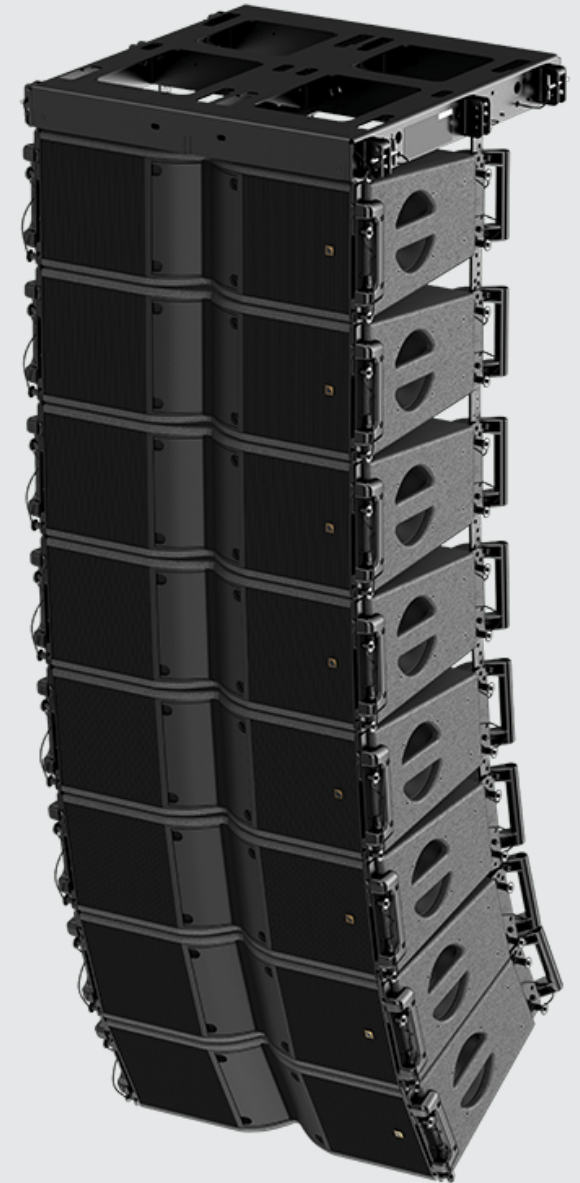

From designs, ideas, visuals, technical drawings, pre-programming, delivering professional equipment to installation and managing the complete technical side of the event.

We put emphasis on planning and preparation of the project. This helps us to a quick and efficient installation plus trouble-free event management.

We have most advanced AV-Equipment in Qatar.

That's why we are able to integrate all kind of elements and technology in:

- **Lighting**
- **Audio**
- **Video**
- **Rigging**
- **Kinetics**
- **Staging**
